AFTER SALES & SERVICES

AL-SAEEDI has organized up a support & services department and undertakes the following standard approach towards service support:

- Service Desk
 - Incident management
 - Problem management
 - Configuration management
 - Change & Release management

QUALITY ASSURANCE

At all levels of deployment all the necessary steps are taken to ensure quality that is unquestionable.

Here at “AL SAEEDI” we have made sure that during each step of the project standards are being followed and the actual site is supervised by expert and qualified staff.

ANNUAL MAINTENANCE

Once client has acquired new system, it is important that it should be properly maintained, so that it provides on-going and increasing benefit to that company.

AL SAEEDI helps you not only maintain your systems; we also help you in upgrading and re-utilizing your existing resources in a cost-effective way as your infrastructure gets obsolete.

COMTECH-ANNUAL MAINTENANCE CONTRACT

We can offer your company a support and service contract which includes regular scheduled maintenance for all systems and Network equipment at an agreed service level and cost.

ON-SITE SUPPORT

We offer phone and on-site support of desktop and server operating systems as well as support for a wide range of Network and Security hardware. We aim to provide you with the highest possible level of customer service.

OFF-SITE /REMOTE SYSTEMS MANAGEMENT

Problems can be fixed quickly with minimum impact on your business and without waiting for a technician. Many tasks can be performed remotely including:

- Daily back-up of accounts and mission critical data permissions
- Performing security checks
- Network operations and monitoring
- Maintenance of user
- Server performance monitoring

GROWTH STRATEGY

How we'll scale in the future

FIRST HALF

- Roll out product to local businesses to help establish the product

SECOND HALF

- Release the product to the general public and monitor stock market trends

THIRD HALF

- Gather feedback from the financial community to expand availability of the product
